About Me

Web Developer

I am a Computer Science student passionate about web development and AI-powered solutions. With a strong foundation in programming languages,I enjoy building innovative projects that solve real-world problems.

I am highly interested in Web Development and AI Technologies. My technical skills include HTML, CSS, JavaScript, Python, Java, DBMS and MySQL. I am always eager to learn new technologies, solve complex problems, and create user-friendly applications.

My Services

Web Development

Designing responsive and interactive websites using HTML, CSS, and JavaScript to deliver user-friendly experiences.

AI-Powered Solutions

Developed AI-based platforms like Scrap Craft AI Hub that integrate price prediction, user engagement tools, and recommendation systems.

Backend Development

Implementing server-side functionalities using Python and MySQL for data storage and management.
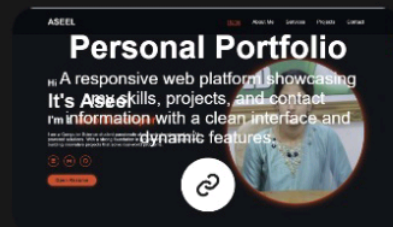

Technical Content Writing

Contributed to technical publication - ICCPCT paper.
